

DEFINITION OF BOARD MEMBER

The members of the Board are volunteers. They are homeowners, such as yourself, who give many hours of their time to help better the community. The members of the Board are elected to their posts by community vote. They are not paid employees and receive no compensation for their work.

No Board member can act as an individual representative of the Board. The members of the Board may only act as a Board. All decisions regarding issues within the community must be made by the Board as a whole, either at a monthly Board meeting or in special cases at emergency meetings.

If you wish to have questions answered by the Board, have a problem solved, or present an idea, you must either attend the monthly Board meetings or send your questions or concerns to the management team so your input may be sent for the Board member's review.
